

Whilter Platform – Brand User Guide

1. Introduction

Welcome to **Whilter**, your AI-powered campaign management platform.

Whilter helps you **create, personalize, and distribute marketing campaigns** across channels like WhatsApp, Email, and Instagram. It also provides **insights** from past campaigns to improve performance.

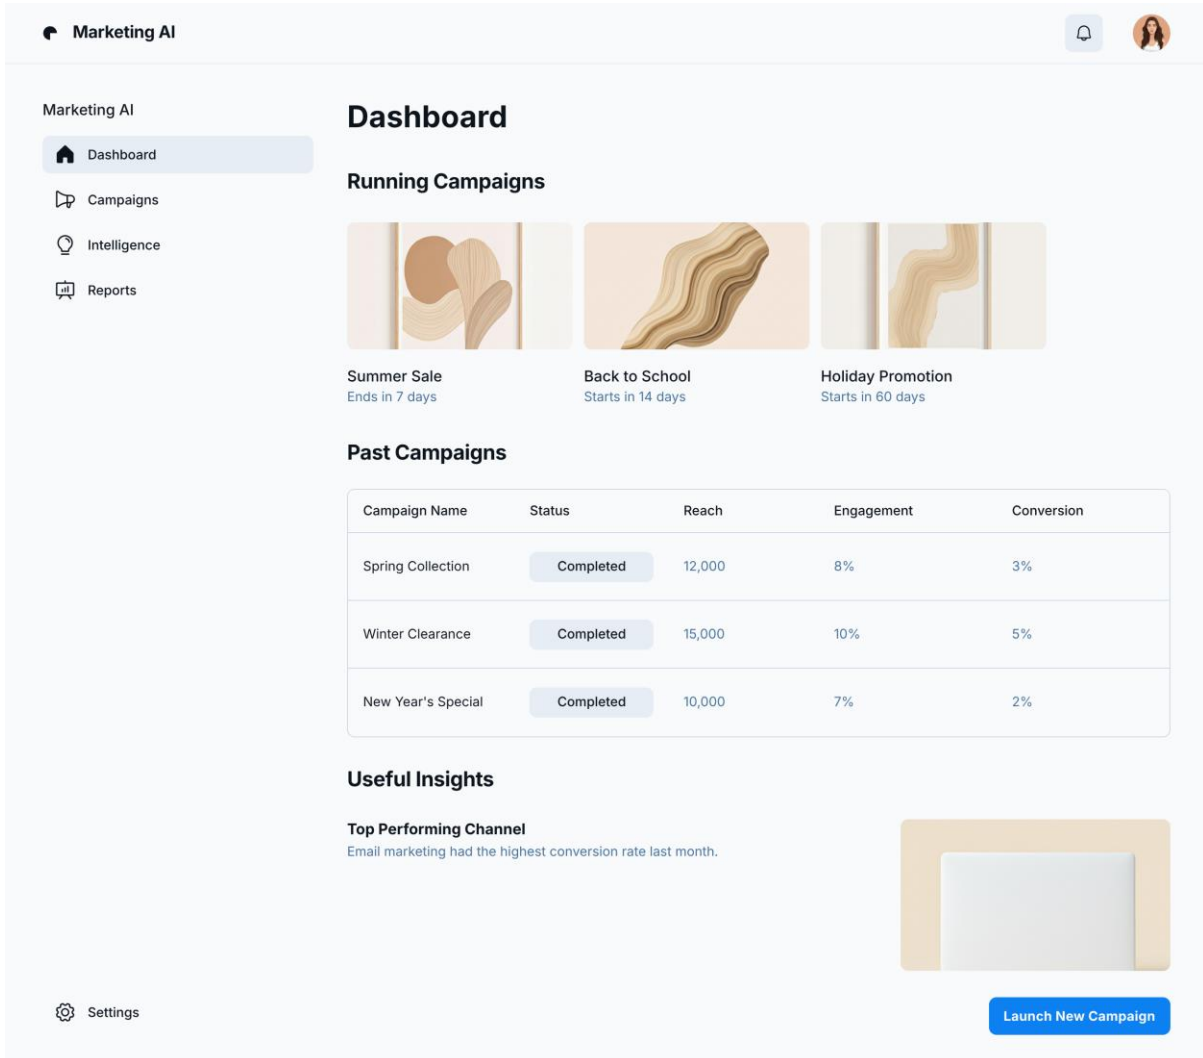

This guide will walk you through the platform's main features and step-by-step process.

2. Getting Started

Login

1. Open the Whilter login page.
2. Enter your **email** and **password**.
3. Click **Login**.
4. If you forget your password, click **Forgot Password** to reset.

3. Dashboard Overview

The screenshot shows the Whilter AI Marketing Dashboard. At the top, there's a header with the 'Marketing AI' logo, a notification bell, and a user profile icon. A sidebar on the left contains navigation links: 'Dashboard' (selected), 'Campaigns', 'Intelligence', and 'Reports'. The main content area is titled 'Dashboard' and is divided into several sections:

- Running Campaigns:** This section features three cards with abstract wood-grain illustrations. The first card is 'Summer Sale' with a status of 'Ends in 7 days'. The second is 'Back to School' with a status of 'Starts in 14 days'. The third is 'Holiday Promotion' with a status of 'Starts in 60 days'.
- Past Campaigns:** This section contains a table listing completed campaigns and their performance metrics.
- Useful Insights:** This section highlights the 'Top Performing Channel' as 'Email marketing' with the note 'Email marketing had the highest conversion rate last month.' Below this is a placeholder image of a laptop.

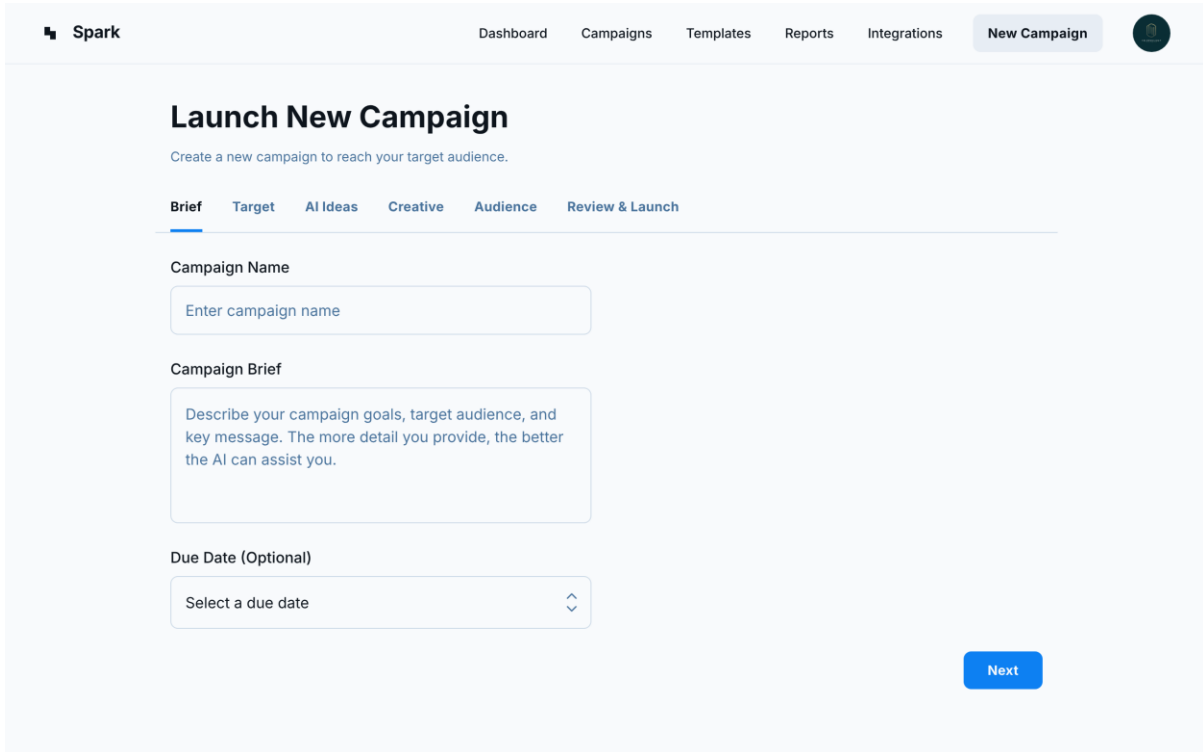

At the bottom left, there is a 'Settings' link with a gear icon. At the bottom right, there is a blue button labeled 'Launch New Campaign'.

Campaign Name	Status	Reach	Engagement	Conversion
Spring Collection	Completed	12,000	8%	3%
Winter Clearance	Completed	15,000	10%	5%
New Year's Special	Completed	10,000	7%	2%

Once logged in, you'll see the **Dashboard**:

- **Running Campaigns** – Active campaigns with key stats (impressions, CTR, conversions).
- **Past Campaigns** – History of older campaigns and their performance.
- **Insights Widget** – Quick highlights from Whilter Marketing Intelligence, e.g.,
 - Best performing channel last week
 - Audience cohort with highest engagement
- **Launch New Campaign** – Button to start a new campaign.

4. Creating a New Campaign

The screenshot shows the 'Launch New Campaign' form in the Spark application. The form is titled 'Launch New Campaign' with a subtitle 'Create a new campaign to reach your target audience.' Below the title is a progress bar with six steps: Brief, Target, AI Ideas, Creative, Audience, and Review & Launch. The 'Brief' step is currently active. The form contains three main input fields: 'Campaign Name' with a placeholder 'Enter campaign name', 'Campaign Brief' with a placeholder 'Describe your campaign goals, target audience, and key message. The more detail you provide, the better the AI can assist you.', and 'Due Date (Optional)' with a placeholder 'Select a due date' and a dropdown arrow. A blue 'Next' button is located at the bottom right of the form.

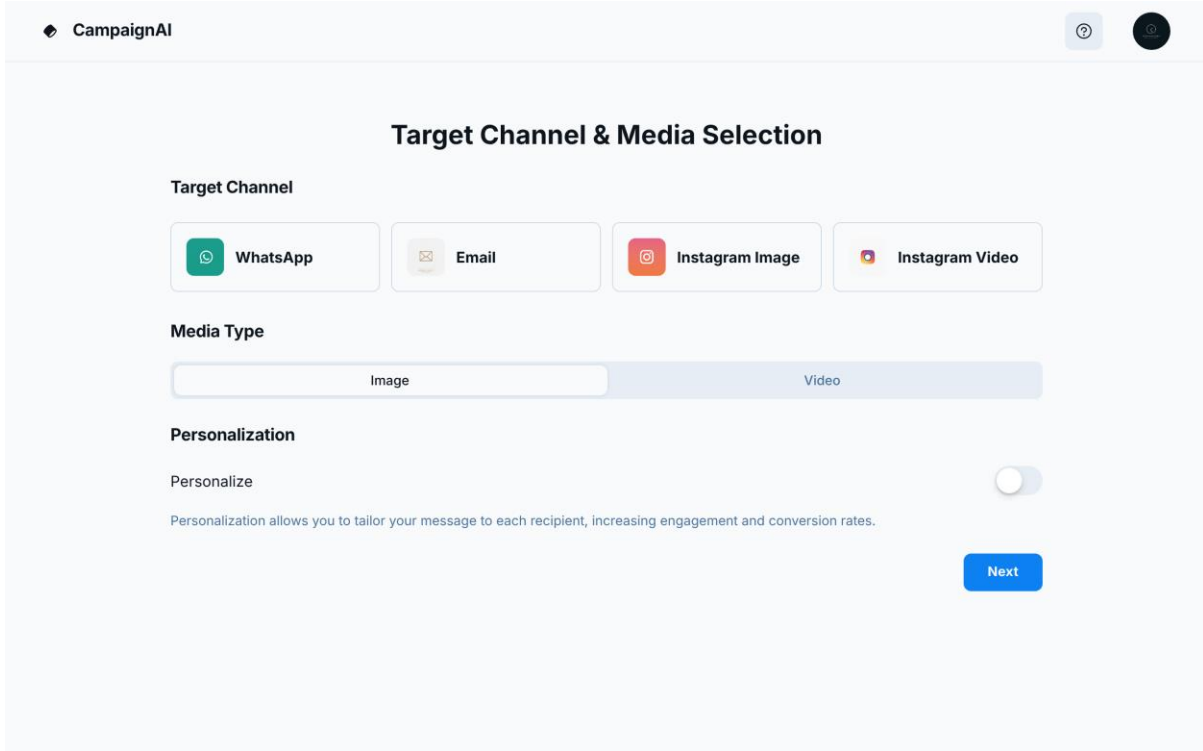

Click **Launch New Campaign** from **Dashboard**.

A guided workflow (stepper flow) will appear:

Step 1: Campaign Brief

- Enter a **Campaign Name**.
- Write a **brief description** of your campaign idea. This acts as an **AI prompt** to generate ideas.
- (Optional) Set a **due date**.
- Click **Next**.

Step 2: Target & Media

The screenshot shows the 'Target Channel & Media Selection' interface in the CampaignAI dashboard. The interface is divided into three sections: 'Target Channel', 'Media Type', and 'Personalization'. In the 'Target Channel' section, four options are available: WhatsApp, Email, Instagram Image, and Instagram Video. In the 'Media Type' section, there are two tabs: 'Image' and 'Video'. In the 'Personalization' section, there is a toggle switch for 'Personalize' which is currently turned off. Below the toggle, a note states: 'Personalization allows you to tailor your message to each recipient, increasing engagement and conversion rates.' A blue 'Next' button is located at the bottom right of the form.

Target Channel & Media Selection

Target Channel

WhatsApp Email Instagram Image Instagram Video

Media Type

Image Video

Personalization

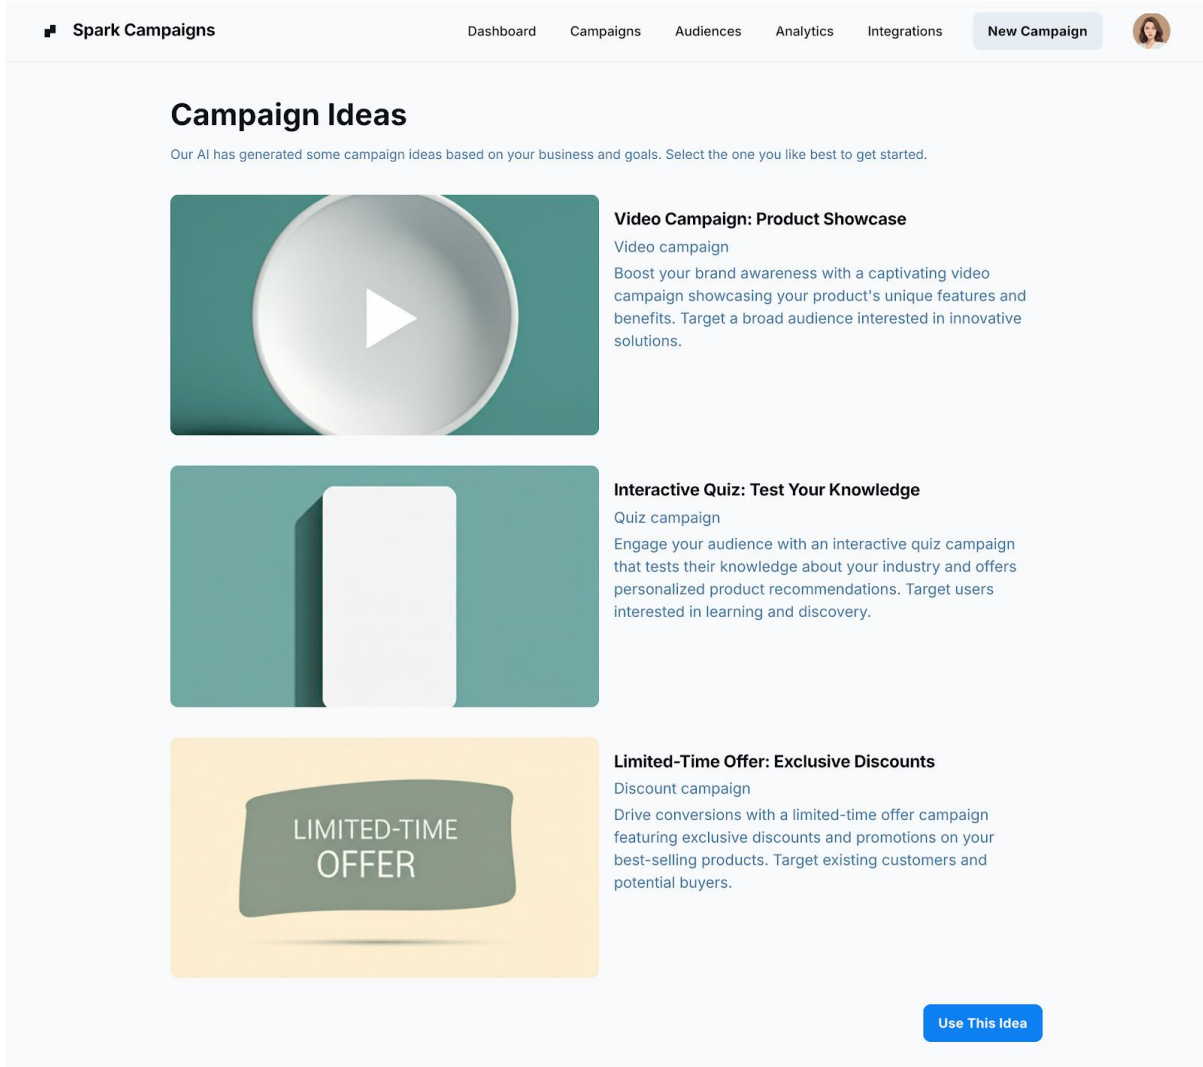

Personalize

Personalization allows you to tailor your message to each recipient, increasing engagement and conversion rates.

Next

- Choose your **Target Channels**: WhatsApp, Email, Instagram Image, Instagram Video.
- Select **Media Type**: Image or Video.
- Toggle **Personalization**: Yes/No (e.g., adding [First Name], [Offer %]).
- Click **Next**.

Step 3: AI Campaign Ideas

The screenshot shows the 'Spark Campaigns' dashboard. The top navigation bar includes 'Dashboard', 'Campaigns', 'Audiences', 'Analytics', 'Integrations', and 'New Campaign'. The main section is titled 'Campaign Ideas' with a subtext: 'Our AI has generated some campaign ideas based on your business and goals. Select the one you like best to get started.' Three campaign ideas are listed:

- Video Campaign: Product Showcase**
Video campaign
Boost your brand awareness with a captivating video campaign showcasing your product's unique features and benefits. Target a broad audience interested in innovative solutions.
- Interactive Quiz: Test Your Knowledge**
Quiz campaign
Engage your audience with an interactive quiz campaign that tests their knowledge about your industry and offers personalized product recommendations. Target users interested in learning and discovery.
- Limited-Time Offer: Exclusive Discounts**
Discount campaign
Drive conversions with a limited-time offer campaign featuring exclusive discounts and promotions on your best-selling products. Target existing customers and potential buyers.

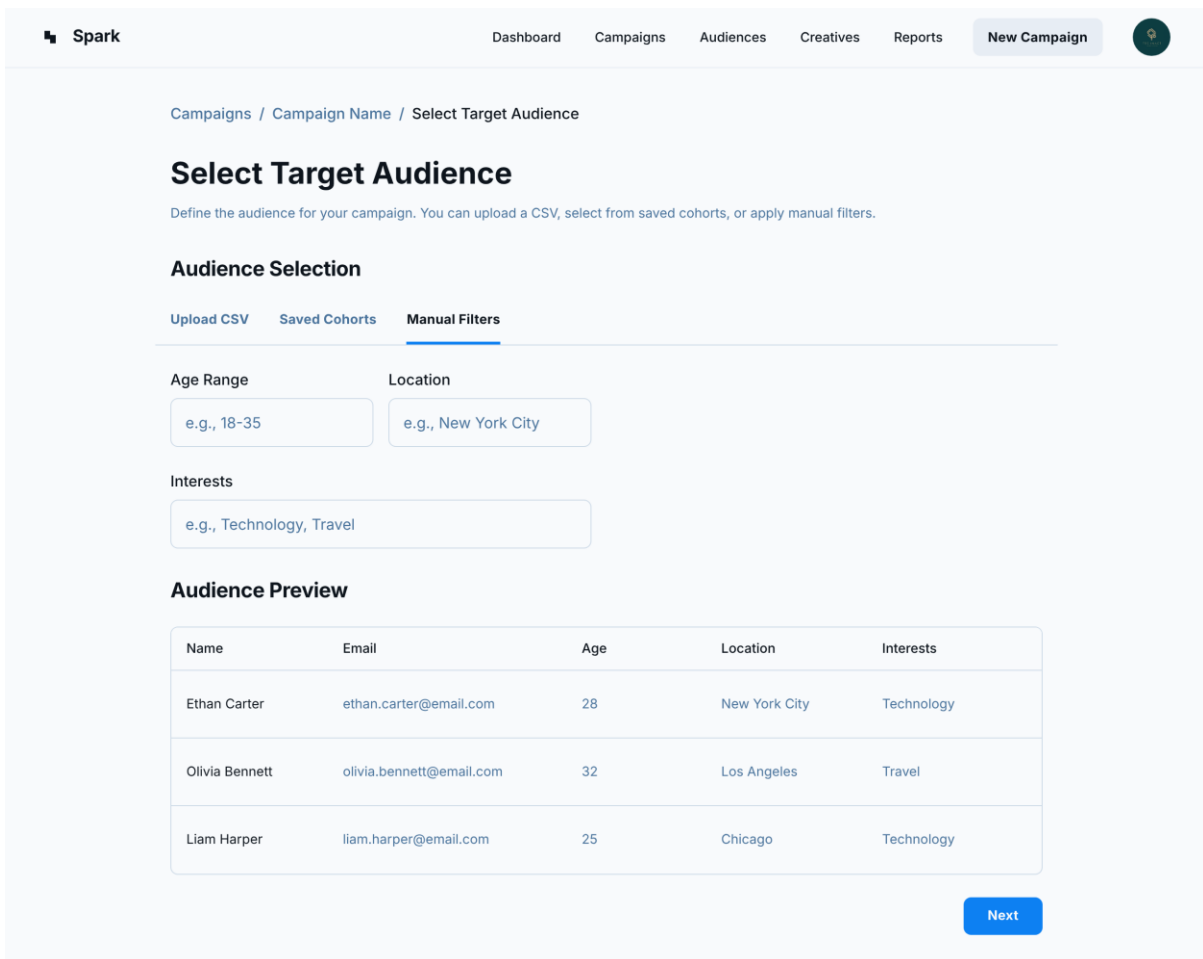

A blue button labeled 'Use This Idea' is located at the bottom right of the interface.

- Whilter will suggest **3–4 campaign ideas** based on your brief and past campaign intelligence.
- Each idea includes **copy + sample creative preview**.
- Review and select one idea.
- Click **Use This Idea**.

Step 4: Master Creative Setup

- Review the **master creative**.
- Static parts: fixed text/design (e.g., brand logo).
- Variable parts: placeholders for personalization (e.g., [Name], [Discount]).
- You can edit variable fields.
- Click **Confirm Creative**.

Step 5: Audience Selection

Spark Dashboard Campaigns Audiences Creatives Reports **New Campaign**

Campaigns / Campaign Name / Select Target Audience

Select Target Audience

Define the audience for your campaign. You can upload a CSV, select from saved cohorts, or apply manual filters.

Audience Selection

Upload CSV Saved Cohorts **Manual Filters**

Age Range Location

e.g., 18-35 e.g., New York City

Interests

e.g., Technology, Travel

Audience Preview

Name	Email	Age	Location	Interests
Ethan Carter	ethan.carter@email.com	28	New York City	Technology
Olivia Bennett	olivia.bennett@email.com	32	Los Angeles	Travel
Liam Harper	liam.harper@email.com	25	Chicago	Technology

Next

- Options:
 - **Upload CSV** (with customer details)
 - **Select from Saved Cohorts**
 - **Manual Filters** (age, location, interests)
- Preview sample rows of audience.
- Click **Next**.

Step 6: Review & Launch

Spark
Dashboard
Campaigns
Audiences
Creatives
Reports
New Campaign

Campaigns / Campaign Name / Master Creative

Master Creative

Review and confirm the master creative for your campaign. This is the base template for all personalized variations.

Campaign Idea

Boost Your Sales with a Limited-Time Offer
Entice customers with a special discount on their next purchase. This campaign leverages urgency and value to drive conversions.

Master Creative Preview

Hello, [User First Name]! Enjoy [Offer %] off your next purchase from [Brand Name].

This is a preview of the master creative. Placeholders will be dynamically replaced with personalized data for each recipient.

Text Placeholders

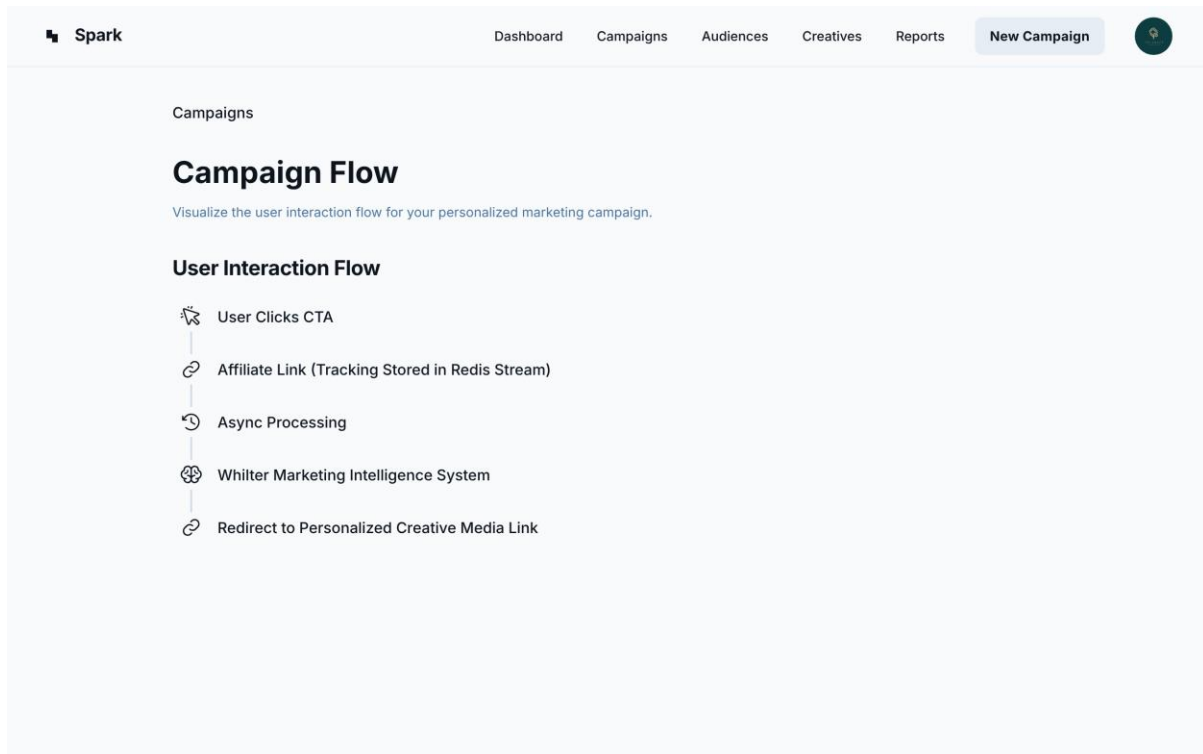

Brand Name

Confirm Creative

- Final summary will display:
 - Campaign name
 - Channels selected
 - Media type
 - Audience size
 - Creative preview
- Review and click **Launch Campaign**.

5. Campaign Distribution & Tracking

- Whilter generates and distributes personalized media to the selected channels.
- Each creative includes a **CTA link**.
- When a user clicks the link:
 - It first routes through a Whilter affiliate link.
 - Tracking data is captured (stored in Redis Stream).
 - Data is processed asynchronously and insights are added to the **Whilter Marketing Intelligence System**.
 - The customer is redirected to the **personalized media page**.

6. Reports & Insights

Navigate to **Reports** in the left menu.

Features:

- **Filters:** Date range, Campaign, Channel
- **Charts:**
 - CTR over time (line graph)
 - Channel performance (pie chart)
 - Campaign performance table

- **Insights Panel:**
 - Best performing campaign
 - Top audience cohort
 - Conversion trends

7. Best Practices

- Use **clear campaign briefs** for better AI suggestions.
- Always review **variable placeholders** in creatives before launch.
- Start with a **smaller cohort** to test campaign performance before scaling.
- Check the **Insights panel** regularly to refine targeting.
